

SELMO TEXTURED RANGE

Il mattone Selmo è caratterizzato da una superficie tipica della lavorazione manuale ed è arricchita dal contributo di effetti di colore generati da varie argille, sabbie e temperature di cottura. Unico e inimitabile nel suo genere, è fatto per rivestire esterni ed interni degli edifici, connotando ogni realizzazione per intensità cromatica e morbida tessitura. L'utilizzo del mattone Selmo, nella sua esclusività, implica una chiara scelta di design.

La gamma è disponibile nei vari formati della nostra produzione (vedi pag. 5). Sono disponibili listelli ed angolari anche confezionati in scatola.

Our Selmo brick is characterised by the typical surface of a handmade manufacturing process and is enriched by the contribution of color effects generated by various clays, sands and firings temperatures. Unique and inimitable in its kind, it is made to be used for indoor and external use, connoting each realisation for chromatic intensity and a soft feeling. The use of Selmo bricks, in its exclusivity, implies a clear design choice.

The range is available in the various formats of our productions (see page 5). Slips and corner pieces are also available and can be supplied packaged in boxes.

STANDARD FLAT RANGE

La linea Standard Flat si riconosce subito. Si tratta di un mattone liscio dalla linea pulita e dal colore omogeneo. Nel mattone Standard Flat di S.Anselmo colpisce l'attenzione per la sua inconfondibile classicità e per la sua ampia gamma cromatica. Dal rosso al giallo macchiato: ogni mattone acquista la sua personalità, integrandosi con l'ambiente circostante ed esaltando le caratteristiche di ogni edificio, valorizzandone non solo gli esterni ma anche gli interni.

La gamma è disponibile nei vari formati della nostra produzione (vedi pag. 5). Sono disponibili listelli ed angolari anche confezionati in scatola.

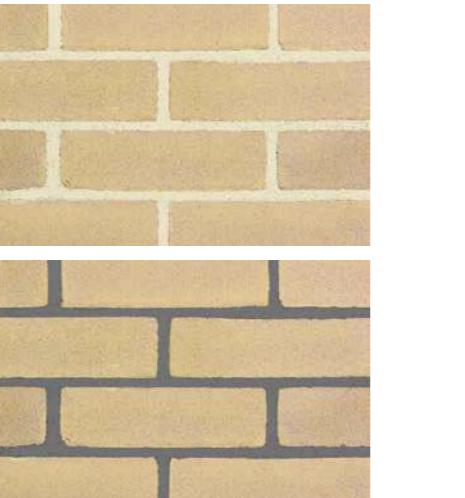

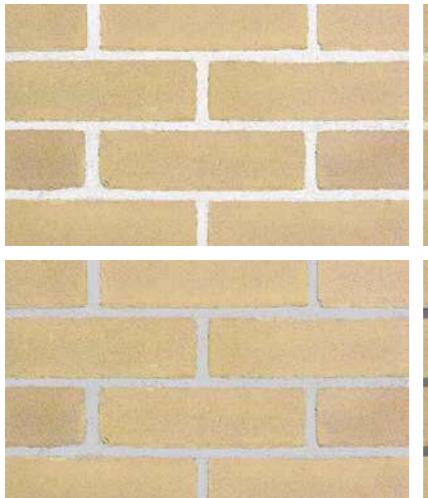

The Standard Flat line is immediately recognisable. It is a smooth brick with a clean line and a homogeneous color. In the Standard Flat brick by S.Anselmo, particular attention is given to its unmistakable classicism and to its wide chromatic range. Starting from the typical red brick, up to the most particular stained yellow brick, each brick expresses its personality, integrating it with the surrounding environment and enhancing the characteristics of each building, enhancing not only the exterior but also the interior.

The range is available in the various formats of our productions (see page 5). Slips and corner pieces are also available and can be supplied packaged in boxes.
