

## Craft

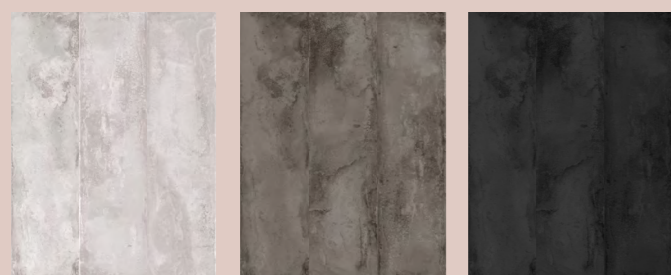

<sup>IT</sup>/Craft si ispira alle *zellige* marocchine. Zellige, che in arabo significa "piastrella", fece la sua comparsa intorno al X secolo. La lavorazione della zellige è considerata un'arte in sé, trasmessa di generazione in generazione da maestri artigiani.

Craft cerca di rispettare questa tradizione millenaria enfatizzando la mano dell'uomo sulla superficie in un mix bilanciato di tecnologia e artigianalità. Ogni Piastrella di Craft è unica. Disponibili nelle forme quadrata e brick con finitura lucida, la collezione è declinata in sei colorazioni caratterizzate da superficie irregolare con varie tonalità, brillantezza, trasparenza e profondità per quanto riguarda lo smalto.
